

## STUDENT IDENTIFICATION CARDS

Upon entry into the school building all Cypress Ridge High School students will be required to wear their student identification card. The card must be worn on the exterior of student clothing and readily visible to any staff member within the building. Student identification cards have been issued for campus security, bus transportation tracking, cafeteria services and library privileges. Students that enter the building without their ID card will be required to purchase a temporary ID card for \$1 from the student identification center located in the Commons or in the main hallway during lunches. Replacement cards are available for \$5. Students that cannot pay immediately for either a temporary or replacement ID will have those dollar figures placed on their fees & fines list for later payment.

Wearing student identification cards is mandatory. Failure to wear a student identification card may result in the mandatory purchase of a new card, parental contact/conference, and an assignment to Saturday Detention Hall or other consequences deemed appropriate by the student's Assistant Principal.
